(i) All rams and ram lambs are warranted by the seller capable of natural and effective service within three calendar months from the date of the sale. If at the expiry (the male fertility guarantee period) the ram or ram lamb has failed to prove himself capable of natural and effective service and a veterinary surgeon's certificate is lodged within 14 days from the date of expiry of the male fertility guarantee period with the auctioneers specifying that the ram is so incapable and further that the veterinary surgeon has inspected the buyer's breeding ewes and found them to be in normal responsible breeding condition and not in the aforementioned incapacity then the buyer may return the animal to the seller.

(ii) The animal shall be deemed incapable of natural and effective service if it fails to make at least one ewe pregnant during the male guarantee period under natural breeding conditions and is so certified as being incapable by veterinary surgeons certificate aforementioned. The Society recommends that the veterinary surgeon follows the "Guidelines on the examination of rams for breeding" and also the "SVS Examination Certificate" as issued by the sheep Veterinary Society.

(iii) The buyer shall during the male guarantee period give the animal full and sufficient opportunity to prove that he is capable of natural and effective service.
